

Classroom Furniture and Carpet Standards

Shoreline Community College

The standards below have been established for new classroom furniture and carpet purchases.

- The intention is to purchase the same furniture products so the classrooms can stay matched up, even if chairs and tables are moved around to different classrooms.
- Environmentally sustainable, easy to clean carpet tile is now the established standard for all spaces being carpeted or re-carpeted. While the carpet colors may change over time, the quality standard will always be followed.
